

Typenex® R3 Attachment System

transfusion process steps:

**Patient
Identification**

**Sample
Identification**

**Blood Bank
Component**

**Blood
Unit Issue**

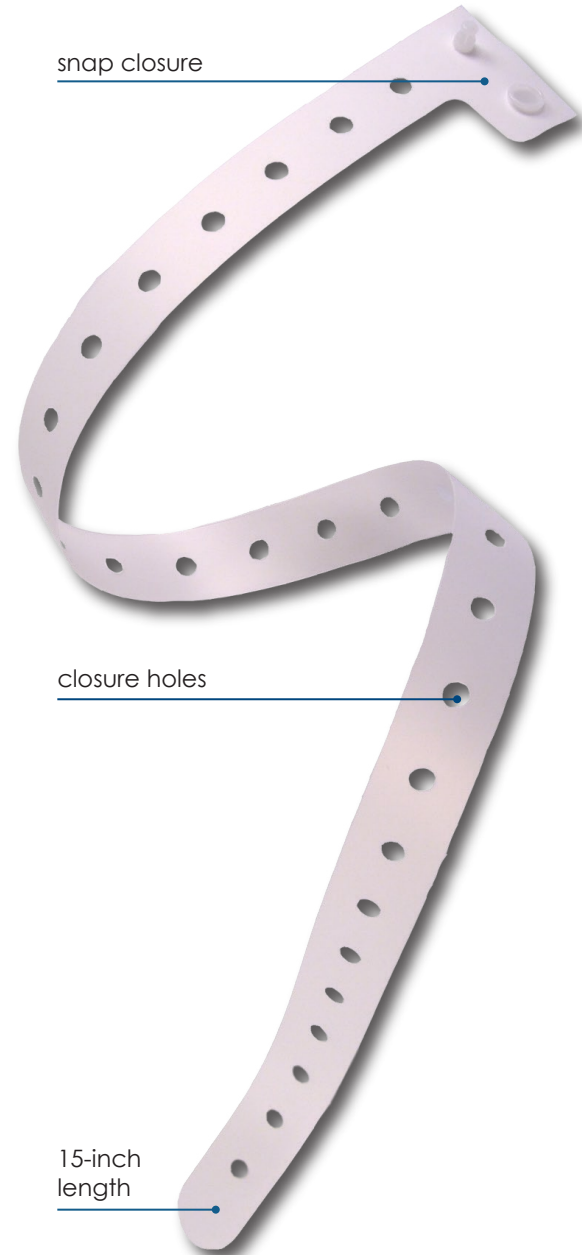

**Recipient
Verification**

**Blood Band
Accessory
Basics**

- Accommodates the process of relocating, resizing or replacing a Typenex Next Generation Barcode Blood Band (BBID) on a patient in a controlled setting
- Can be sized to fit most any patient extremity, while keeping the BBID fully intact
- Latex-free plastic, no metal
- Easy to apply and intuitive for clinicians
- Comfortable for patients

- Easily recognizable that the patient blood band has been relocated, resized or replaced onto the patient, so extra care should be taken to ensure accurate patient identification

- **Durability:** Patient stay
- **Indications:** In-patient use
- **Packaging:** 6 cartons/10 bands, 60 bands/case

band is available in these colors:

**4R4700
WHITE**
